

~~SECRET~~

20 July 1987

**MEMORANDUM FOR:** Chief, Management and Liaison Staff, OC

**FROM:**

[redacted]  
Chief, Management and Plans Branch, OC-MLS

**SUBJECT:** Weekly Staff Notes, 12 - 18 July 1987

**1. General:**

a. [redacted] met with members of the Directorate of Intelligence (DI) Information Handling Staff on 16 July to discuss the OC/OIT 5-year New Communications Services program.

b. [redacted] summer-only hiree detailed to the Management and Liaison Staff, performed such diverse tasks as typing Claim for Reimbursement forms and distributing mail within the Management and Plans Branch (MPB), xeroxing and assembling contracts for Contracts Branch (CB), and filing documents for both MPB and CB.

c. On 17 July, [redacted] attended a Directorate of Operations sponsored symposium entitled "Critical Economic Issues: The Challenge of Superconductors" at the Headquarters auditorium. Eminent guest speakers related details on dramatic breakthroughs which have taken place over the past year in the engineering of high density current flow at or near room temperatures with zero resistance.
